

FOR IMMEDIATE RELEASE

PRESS RELEASE

Due to flooding of Little Cottonwood Creek, Murray City Park is being closed until further notice. The flooding has created swift currents and water with debris throughout the park. We appreciate the cooperation of everyone as we work to keep people's safety at the forefront.

Murray Park Center can be accessed from 5300 South only. All sporting events, including those at Ken Price Ballpark, are temporarily discontinued. High waters in all the creeks are a concern and we encourage everyone to stay away until the water levels go down.

We especially remind adults to keep a close watch over children around these fast moving streams.

For volunteers who would like to help fill and place sandbags, please go to Cottonwood Heights Elementary School, 2415 E. Bengal (7530 South) Blvd. in Cottonwood Heights. Updated information is available at www.slcoem.org.

For Murray City specific information, please contact:
